PERSONAL PROFILE

I am a senior web and full stack developer with over 7 years of experience. I specialize in responsive web and application development for startups and small to medium size businesses. My skill set includes wide-ranging expertise in WordPress, JavaScript frameworks such as React.js, VueJS and Next.js, Nuxt.js for headless CMS implementations, Node, Bootstrap, Shopify, Ruby, Django/Python and other platforms. Extensive expertise in UI/UX, digital marketing, google analytics, adwords and SEM, makes me a virtual one-stop shop -- throw in impeccable attention to detail and very conscientious communication, and you get unusually fast and effective development at a very competitive rate.

WORK EXPERIENCE

Senior Web Engineer & Blockchain developer

Smooth Commerce / Apr 2018 - Jun 2021 (found in 2009, 11-50 employees)

- Collaborated with colleagues from other departments and participated in creating and testing DApps (Ethereum/Solidity)
- Worked on a project to update a cryptocurrency named Nano and related services.
- Built a financial auditing system for Stripe payments using React and Laravel where the client payment reconciliation was performed between the application database and Stripe Rest API
- Took part in building dashboard, analyzes and displays data extracted from AI platform using React and GraphQL.
- Created a web application that provides clients convenient ways to browse videos and audios and buy them.
